

**In three parts, this modern classic explores the life of an English family, the Ramsays, at their Scottish summer house both before and after The Great War. Difficult to categorize and including elements of feminist and psychological literature as well as stream of consciousness, Woolf's novel reads, at times, almost like a prose poem. At its heart, it examines what it means to be a woman and an artist at the start of the 20th century. (Summary by WendyKatzHiller)**

**Read by Wendy Katz Hiller. Total running time: 08:59:51**
